CORBETT IN GREAT SHAPE.

SAYS SHARKEY ISN'T IN IT.

AND SAYS HE WILL WIN SURE.

WITH my contest with Tom Sharkey only a week off it is hardly necessary to say that I am in good physical condition. Yet I want to assure my friends that the three weeks of faithful training has put me in the best condition possible for an athlete to be, and that I will be prepared to put up the battle of my life next Tuesday night. I do not request my friends to put their money on me, but if they do I am sure they will get a run for it. I think my past record will guarantee them that I am a fighter. I have been defeated but once, and that, as everybody knows, was an accident. If not, why does my conqueror refuse to give me a chance to regain my laurels? I will gain the honors some time in the near future, and next week will find me one step nearer the championship.

Will beat Sharkey. Of that I am confident. When or how I will do the trick I cannot say at present. It may be two rounds or ten rounds. It makes no difference to me, for I will be prepared to go one hundred rounds if necessary. Some people say Sharkey is a terrible fighter, that he will do this and that. All I have to say is: Don't be deceived. He has big muscles, it is true, but they do not frighten me in the least. They do not make a fighter. Who ever saw a great fighter with knobby, potato-like muscles as Sharkey has? He may be a great rough fellow, but if he fights me according to the rules it will be all over with this fellow Sharkey.

I have met this gentleman once before and I think I know him pretty well. I will make no mistake this time. I have been asked why I trained in Harlem for my coming fight. Well, I think my reason is a very good one. I live in Harlem and when I am through training I can go home, eat what I want and have my own bed to sleep in. I am but one block from the beautiful Riverside Drive, where I do my road work. Why should a man go to the country when he can get what he desires in the city?

Yesterday I concluded my hard training and hereafter will do light exercise until Saturday to keep my muscles from getting stiff. Then I will rest up and enter the ring ready to put up the battle of my life. I will weigh about 183 pounds when I face Sharkey.

JAMES J. CORBETT.

"A CINCH," SAYS TOM SHARKEY, REFERRING TO JAMES CORBETT, "I'LL DEFEAT HIM IN A WALK."

WHEN I signed articles to meet James J. Corbett it was with the expectation that I would win. Since that day I have not changed my mind in regard to the outcome of our meeting, and think I will have won the contest before the limit has been reached. If I win the battle, which I am confident of doing, I will then be ready to stop any and all challengers for the heavy-weight championship. I candidly admit that Corbett is more scientific than I am. He is a shifty fighter and a good ring general. But I have been taught a little about the science of the game since I met Corbett in 'Frisco two years ago, and am going to surprise some of the people who think I have no show with him.

I have fought over thirty men in my career, and they all went down before me. One blow did the business for most of them. Corbett can't keep away from me once during four rounds, and when I hit him fair, he will go the same as the rest. If I can get in one blow to his three I am satisfied I can do the trick. When Corbett and I enter the ring the spectators will see a great fight. The rules call for a good, clean cut contest, and I don't think there will be any opportunity for fouling. I am going to hit Corbett and am willing to take what punishment he can give me while getting to him.

I rely greatly on my strength and superior condition, having never dissipated. I am in better shape to-day than ever before and have more "bottom," as a race horse man would say, than the fighter who has abused himself. I never felt better and will be prepared to go the limit, but I do not think we will go the distance, for the ex-champion will never stand what is in store for him. People who say I have no science will, I believe, find that I have a little bit after our match. They do not take into account my rapid improvement.

Of late I have mixed it up with some of the scientific ones, and have had trainers who know every trick that is practiced. As a result I have become more shifty and can hit with greater precision. What style I will employ when I meet Corbett I do not know. I will be prepared to meet any emergency and have no fear as to the result. As a boxer Corbett has no master, but as a fighter I am his superior and will prove that on November 22.

CASSIDY STANDS NO NONSENSE.

Offending Jockeys Heavily Fined and Suspended by the Starter.

GOOD WORK WITH FLAG.

Backers Pick Four of the Six Winners at the Benning Track.

By Frank J. Bryan.

Washington, Nov. 14.—Those who predicted that Starter Cassidy's great form on Saturday was the old story of a new broom sweeping clean are to-night willing to admit all that has been claimed for him. His work to-day was fully up to the standard of Saturday. The doubters to a man have been silenced. He has made the jockeys understand that he is to give the orders and that they are to obey them. Twice during the afternoon they showed an inclination to go back to old habits, and the offenders were promptly called to task. O'Connor being fined \$100 for impertinence and Moody suspended for a week for breaking through the barrier.

The punishment must have rattled Moody, for his work after the flag fell was little short of criminal. He had pounds the best horse, but third money was his share of the purse. The fact that the favorite for the race (Tappan) is owned by his regular employers only added fuel to the flame of discontent.

That was the one discord to the harmony of the day's sport. The weather was perfect, the programme attractive, the finishes close, and, best of all, the public's choices were first home in four of the six events decided. This success of good things was so far from being a cause for celebration as Saturday's disappointments had caused many to seriously consider a journey back to New York.

Degeet broke a long spell of hard luck by capturing the opening event. The victory was doubly fortunate, for few of those near the finishing line believed he could get up to Tinkler, who had been the pace-maker from the start. Dogtown was third.

Manuel Ellis, the favorite, was beaten off the start, and the latter beat her a head. Tappan opened and closed favorite for the second race, but his support was chiefly a public one, and 8 to 5 was always offered against him. He was first away from the start, and with Red Spider in close company set a lively pace. At this point Tappan looked a little shaky, but he held on for a few strides it looked as if she would win easily, but O'Connor, who was on her, was completely outclassed by Maher on Red Spider, and the latter beat her a head.

Neuberger was third. He was last of the field on the back stretch and even on the turn for the run home looked hopelessly out of it.

The third race was conceded a gift for Lady Linger, and so it proved. Those in the ring early found 1 to 2 offered, but at post time 1 to 8 was the general average. She led all the way and won easily. Exception was second and Francis Booker, third.

Cunningham's finish on the last named was rather disappointing. He was anxious to get the place, but the filly seemed too much for him.

Her own all but brought a surprise in the fourth race. She was first away, and it was only in the last couple of strides that she was caught, the favorite, Maurice, beating her half a length in a hard drive. Neuberger was second, and Francis Booker, third.

Under way, was third. Mr. Washington led after running a quarter. Cunningham tried to pull him up, but he went another furlong, then staggered through the finish, falling into the infield. Happily both horse and rider escaped without serious injury.

Roysterer won the fifth event and Kinnikinnick the sixth. Both were at odds on a steep handicap for hunters will be quite to Monday's card. It will be run over the full course. A liberal entry has been promised. Summary.

First Race—For all ages; non-winners in 1893; \$300 added; special weights; allowance. Five and a half furlongs—M. P. Stephenson's S. E. Red Spider by Devereux, 112 (Moody), 8 to 1, and 2 to 1; won. Neuberger, 2 to 1 (Moody), 4 to 1 and 2 to 1; third. Time, 1:30 1/5.

HARVARD, AS USUAL, BEGINS TO THINK YALE WILL WIN, AND THE OLD ELIS, AS USUAL, PREPARE TO MAKE GOOD.

New Haven, Nov. 14.—As the players were more or less used up after the hard struggle with Princeton, the Yale team was given half a rest to-day, and the scrub and 'Varsity did not line up at all. The 'Varsity were given a solid hour of signal practice and formations, and McBride and the other backs spent a long while kicking and catching punts.

The team as a whole seems to have come out of the great contest with very few serious injuries, the only ones who show the effects of the hard knocks which the Tigers gave them being those who went into the game with injured members.

De Saules was out walking around, but was not in his football clothes. He was able to get around without his crutches and his ankle seemed to have improved considerably since Saturday, and it may be that he will be gotten into shape for the 19th, but this seems very improbable. The tendons in his ankle have been badly torn, and consequently the joint is very weak.

The moment he puts much weight on it the tendons give way, leaving him helpless. This was shown very clearly at Princeton, when the time that Hillbrand came so near getting over the line for a touchdown. He, too, was out walking around, but was not in his football clothes. have been a great difference in his playing, the best instance, for it has always been a falling of Harvard not to be able to put up her best game away from home.

Cambridge, Nov. 14.—To-day Harvard settled down to the last few days of secret practice, and the coaches who came to the field were there to work up a do-or-die spirit. Never on Soldier's Field have the men been called down for their mistakes as they were to-day. Players were told that they must do this or that, and if they failed all sorts of threats were made.

The chances are that some of the players were more or less scared by this treatment, and as the team is not used to being so upon the results may not be as happy as the zealous coaches imagine. In some circles this calling down is said to be moulded upon the treatment the players are supposed to get at Yale and Pennsylvania.

The great points of to-day's work was that the 'Varsity played on the offensive most of the time. In preparation for Pennsylvania the 'Varsity was put on the offensive during the last practice days. Against Yale the coaches are convinced that Harvard will need a rattling good offensive play in order to win. The one encouraging feature was the small number of fumbles, and this point is an important one, as the history of the last two big games clearly showed. But the backs, on the whole, did nothing brilliant.

End plays were tried, as Harvard seems to have prepared to make a fierce fight for it than they were on Saturday. With all the coaching they will receive during the week the backs and the line will be able to work together much more harmoniously, and it is most improbable that McBride will be as far off his game in kicking as he was, and when he gets straightened out it means that the odds will show up better in follow line his kicks.

The fact that the game is to be played third, time, 1:18. Mazie O. and Lepka also ran. Mazie O. ran by four lengths; a head, between second and third.

Fourth Race—For three-year-olds and upward; \$300 added; special weights; allowance. Five and a half furlongs—M. P. Stephenson's S. E. Red Spider by Devereux, 112 (Moody), 8 to 1, and 2 to 1; won. Neuberger, 2 to 1 (Moody), 4 to 1 and 2 to 1; third. Time, 1:30 1/5.

Fifth Race—For all ages; non-winners in 1893; \$300 added; special weights; allowance. Five and a half furlongs—M. P. Stephenson's S. E. Red Spider by Devereux, 112 (Moody), 8 to 1, and 2 to 1; won. Neuberger, 2 to 1 (Moody), 4 to 1 and 2 to 1; third. Time, 1:30 1/5.

Sixth Race—For all ages; non-winners in 1893; \$300 added; special weights; allowance. Five and a half furlongs—M. P. Stephenson's S. E. Red Spider by Devereux, 112 (Moody), 8 to 1, and 2 to 1; won. Neuberger, 2 to 1 (Moody), 4 to 1 and 2 to 1; third. Time, 1:30 1/5.

Seventh Race—For all ages; non-winners in 1893; \$300 added; special weights; allowance. Five and a half furlongs—M. P. Stephenson's S. E. Red Spider by Devereux, 112 (Moody), 8 to 1, and 2 to 1; won. Neuberger, 2 to 1 (Moody), 4 to 1 and 2 to 1; third. Time, 1:30 1/5.

Sixteenth Race—For all ages; non-winners in 1893; \$300 added; special weights; allowance. Five and a half furlongs—M. P. Stephenson's S. E. Red Spider by Devereux, 112 (Moody), 8 to 1, and 2 to 1; won. Neuberger, 2 to 1 (Moody), 4 to 1 and 2 to 1; third. Time, 1:30 1/5.

one of the big features, and up to now it has not been decided who will do the kicking for the crimson. To-day the work was entrusted to Reid, who, however, does not carry as well as Haughton, though he places with greater accuracy. The coaches seem to think that Haughton will do the kicking, but it is likewise a little too cool, according to some, and too slow, according to others, but in any case it is feared that Yale's strong rush line will get through and block some of his punts, and if there is anything the coaches fear it is a blocked punt.

During the thirty-five minutes of play this afternoon the 'Varsity scored four touchdowns. Reid made two and Warren and Drayton each made one. The work, however, was not so much due to the regular play of the men or to good interference and the ability to open up holes as to the aggressive spirit that the coaches managed to yell into the men at times.

The weakest side of the line to-day was the left, where Donald played at tackle and Reid at guard. The scrubs were able to make most of their gains through this side, and they kept on pounding it for that time during the short time that they had the ball.

The 'Varsity played on the offensive most of the time. In preparation for Pennsylvania the 'Varsity was put on the offensive during the last practice days.
